RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Vol. 29

FRIDAY, MAY 23, 1930

No 14

## News Notes

Dr. Hall went to Magrath Thursday morning on his usual visit there.

Bishop H. F. Allen is building an addition to his home.

Considerable digging has been done on the roads this week.

Mr. and Mrs. Ted Gourley were Lethbridge visitors on Saturday.

High cold winds have been blowing most of the week.

Mr. and Mrs. S. I. May were in Lethbridge Saturday afternoon.

M. and Mrs. F. B. Rolfsen are home again after a trip through Utah and the Pacific Coast States.

John Bnseom is away shearing sheep at the present time, having left Wednesday forenoon.

Rye is reported as being over four ft. high at Purple Springs. Sounds pretty good for this time of year.

The Baseball League is scheduled to start May 28th. Our opening game is scheduled with New Dayton.

Don't forget the Stake M.I.A. Dance in the Opera House, Sat. night May 24th.

Gordon Brewerton and wife were Sunday visitors in Raymond with relatives.

Mr. and Mrs. Reg. Cooper were Cardston visitors this week. While away Reg made a trip to Calgary.

Lethbridge City is travelling now out to meet the Sunshine Trail. This will certainly be appreciated by the many motorists of the south.

The U.F. and U.F.W.A. are sponsors of a membership drive now. According to reports they are meeting with good success.

The higher ceiling covered with metal in Holt's Market is adding much to the appearance of the interior. The new front will not be completed for a few days yet.

The Mothers Day Services held in the Raymond Sunday Schools last Sunday were very appropriate and well carried out. Class exercises, solo and group singing and short speeches all suitable to the day, made up a very enjoyable program.

Two football games were played between the town team and the Telephone Repair crew during the past week. The Telephone men won the first one 2-0, and the Town boys won the next 4-0. The local boys are showing some pretty good stuff and if they keep on will be able to give a good account of themselves in any company.

Mrs. O. H. Snow entertained on Tuesday morning at a breakfast party in honor of Mrs. Roxie Robbins who is visiting here. Those present were: Mesdames H. Nalder, C. F. Tollettup, S. B. Card, Edgar Nilsson, M. W. Boyson, and Mrs. Robbins the guest of honor. An interesting time was spent in the hostess' views and souvenirs of her recent trip through California.

The special "Oil Edition" of the Lethbridge Herald Saturday night was very interesting and full of up-to-the minute information on Southern Alberta's oil development. Five hundred copies were purchased by the Lethbridge Board of Trade for distribution to Trade Boards and Chambers of Commerce in Canada and Montana cities which are near enough to be interested.

Mrs. C. R. Wing was hostess at a very delightful party on Wednesday afternoon, held in honor of Mrs. Roxie Robbins. Games and refreshments occupied the time. Those present were Mesdames Leland Burr, Roy Nalder, Heber Allen, Ada O'Brien, Stewart Card, Leslie Palmer, Robert Graham, Myron Holmes, C. F. Tollettup, Lelf Erickson, Clifton Nalder, Ben Peterson, M. W. Boyson, Fern King, Frank Leavitt and Hamp Wiltbeck.

## T. O. King Is Popular Choice

On Saturday night in the H. S. building an enthusiastic meeting sponsored by the local U.F.A. came to a decision to place in the field a nominee for M.L.A. at Edmonton, Raymond, largest centre of the constituency faces several problems requiring provincial attention among them. The problem of keeping the School of Agriculture in operation. That of effective co-operation with the sugar industry. The problem of our roads besides others affecting us locally and as a part of the riding.

The unanimous choice of the meeting was T. O. King, old timer, and veteran, and public spirited citizen.

So popular was the choice that many supporters were manifest at the meeting, whose political affiliation in the past have been elsewhere.

J. W. Evans and Dr. Leech were appointed to interview Mr. King to receive his consent to nomination, and pledge support of the local organization.

O. H. Snow, Jas H. Walker, Reiva B. Ross were committee appointed to visit neighboring U.F.A. organizations with a view to securing their support.

The remainder of the meeting was devoted to appointing canvassers etc and getting in order machinery to insure effective work prior to the nominating convention which convenes at Coutts, May 29.

In view of the condition at present existing it must appear to everyone that a local man at Edmonton would be decidedly advantageous to Raymond and district. We want the Raymond School of agriculture made more permanent, we want the gravelled road built from Lethbridge to Cardston through Raymond, Magrath, and Spring Coulee, and many other public issues.

We do not say that the election of a Raymond man to Parliament would be the solution to the problems, but think it would be a great factor in our favor.

We have the opportunity now, numerically, to make a strong bid for this honor, the first time in Raymond's history. How well will we embrace the chance? Will it be a question of the public good, or will it be a question of party?

What story will June 19th reveal regarding Raymond's vote?

## MEEKS BROTHERS PONIES LEAVE

### Problems of the Future

The mechanized farm is bringing in its train a number of problems which will have to be considered in the future. What these changes may be we would not attempt to say. Three years ago, however, we predicted the best of the harvesters' excursions from eastern Canada. We believe our prediction is coming true sooner even than we thought. That is just one of the many manifestations of what is going to happen in future right here in Western Canada.

There are those who say that in future the farm will be a corporation owned and managed affair, that those who work on it will be as workers in the factories of the industries of the cities. This will bring a specialization, a shortening of hours, a bettering of living conditions on the farm, and will be beneficial all around, according to those who make the prediction. We don't know whether this will follow or not, but it does seem that, with millions out of work in the world, we are going to face a shorter working day in the not far distant future, and the farmer will just be defeating his own end if he doesn't join in the general movement. Over-production is, to some extent the cause of many of the farmer's worries to-day. It is not really over-production, but inability of millions of people in the world to buy what the farmer produces at a price which they can afford. If all the people of the world were on an even footing with the people of Canada and the United States in the matter of standard living, our agricultural surplus would disappear as if by magic. But that is not the case, and in the mean time we have what is called over-production; we have a very strong movement to cut down the amount of labor used on the farm, and many are wondering what the outcome will be.

It seems to us that, even if the big

mechanized and specialized farms do come to a much greater extent than they are today evident, there is still going to be a place for the small farmer who loves the land, who likes to live in the country and grow his own food, and who can be contented and happy, glad not to be on the dole even if he hasn't got so much money as a lot of felts. For these people the irrigated sections of Southern Alberta are going to offer a wonderful opportunity, for there the intensified small farm as opposed to the extensive mechanized farm will find its location. We will have a better appreciation of or irrigation projects when that day comes.—Lethbridge Herald.

### CANADA GETS MOST BRITISH IMMIGRANTS

Ottawa, May 6 (Special to the Recorder) According to a report which originates in the House of Commons, London, Eng. emigration to Canada has increased more than 25 per cent during the past four years, although emigration to the Dominions generally has shown a considerable falling off since 1926.

Hon. W. R. Smith, parliamentary secretary of the Board of Trade, in reply to question said emigration to Canada had increased year by year, namely from 49,632 in 1926 to 65,558 in 1929, while the Board of Trade figures showed the aggregate emigration to Canada, Australia and New Zealand had decreased from about 119,000 in 1926 to 94,000 in 1929.

The Colonial office also was questioned with regard to Dominion immigration. Dr. Drummond Shields, parliamentary under-secretary gave the same figures as Mr. Smith for Dominion emigration generally, stating emigration to Canada showed an annual increase.

A quartette of Meeks Brothers famous race horses were loaded on the train Monday for the Calgary meet which commences Saturday, May 24.

This bunch includes: Silent Clark, a four-year-old gelding; Silent Mary a three-year-old; Silent Elton, a two-year-old stallion and Silent Canadian, a three-year-old filly. The last three will make their initial maiden appearance before the tape in the Calgary race meet, while Silent Clark, Junior has already been in fast company and made a good showing. There is no doubt that followers of the race meets also racehorse fans, will welcome these new thoroughbreds of Meeks Bros and recognize the name "Silent" which has already become famous and is associated only with the best breed of race horses in Western Canada.

The records made by "Silent Pardner" and "Silent Weapon" on the tracks of Canada and in many States to the south, including the big meets at Tianguana, have proven the remarkable worth of these fleet-footed animals, worthy of the many favorable press reports that have been given wherever these horses have run.

It is needless to state that the three "Silent", Clark, Elton, and Canadian making their debut before the tape next Saturday, will have made a name for themselves in the many favorable press reports that have been given wherever these horses have run.

And while both Silent Weapon and Silent Pardner have passed out (both horses were relinquished to owners from Meeks Brothers in exchange for the new blood of these young horses just shipped to Calgary should even make better showings than their older deceased half-brothers. This little string of horses will remain in Calgary for a few weeks and will afterwards be shipped to Winnipeg, where they will go up against some of Canada's best.

Local racehorse fans are watching with keen interest the anticipated achievements of these thoroughbreds. Many Lethbridge fans also are interested in the Meeks Brothers famous "Silents".

## Road Program for M. D. 37

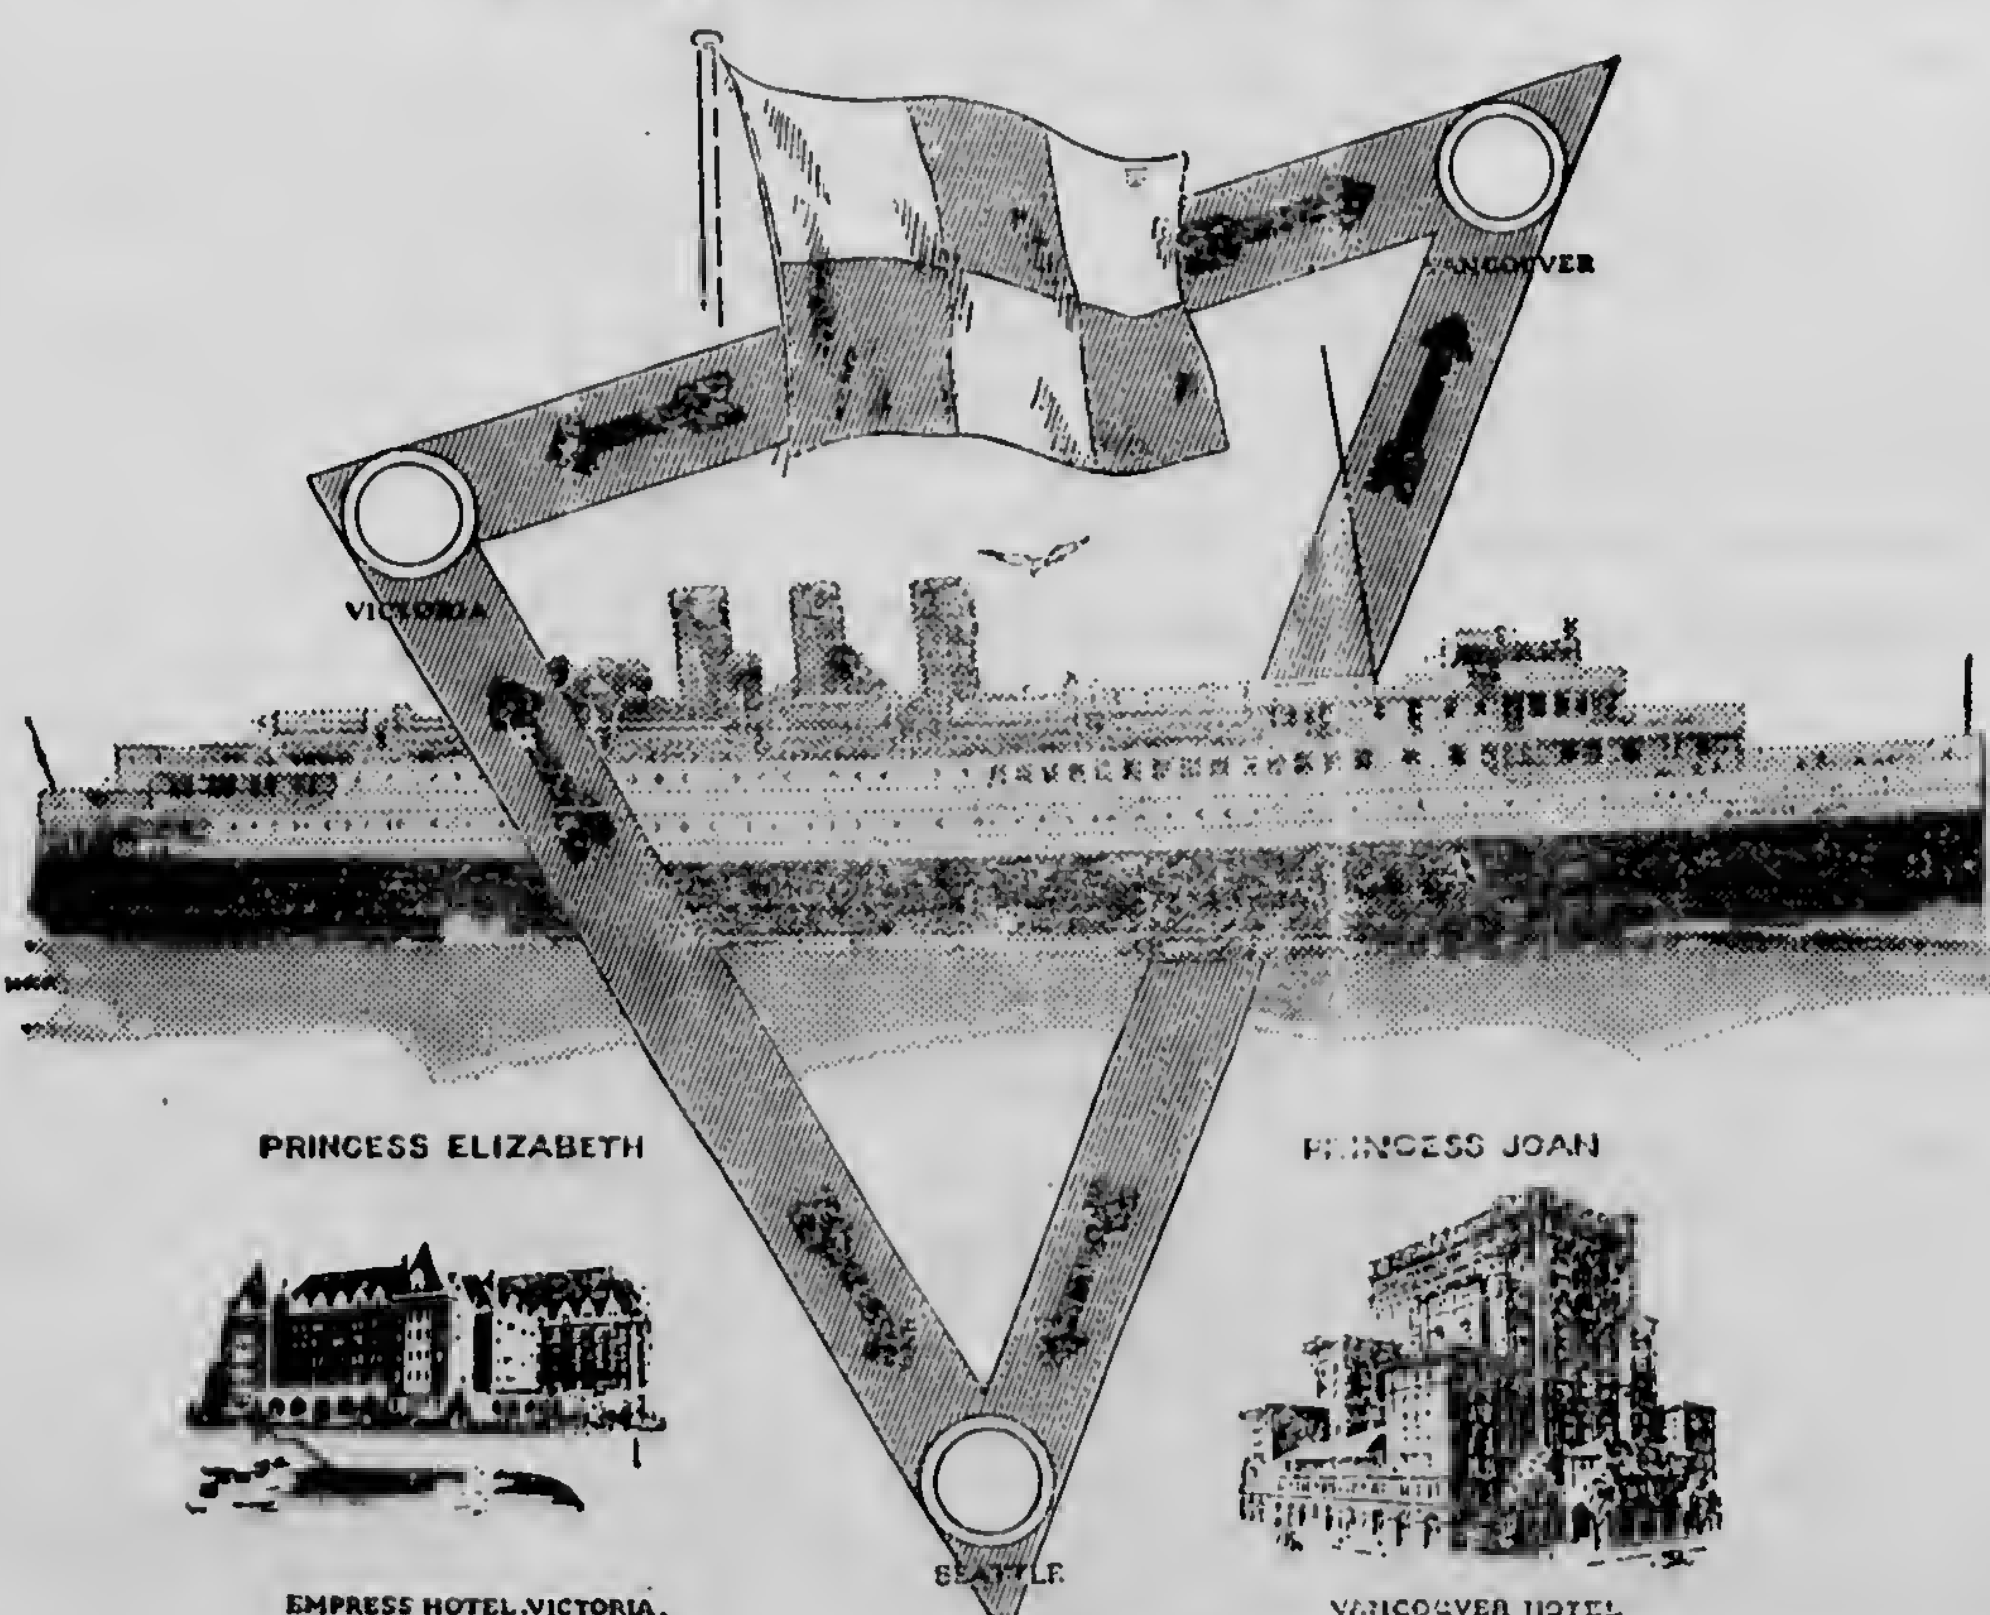

The Sugar City M.D. have an aggressive road-building policy outlined for this season and when completed will leave no room for fault-finding on the part of local residents.

While contracts have not yet been signed, arrangements are practically complete for the building up to standard of the six miles of road north of Welling to the correction line and west two miles to the Magrath line to complete this section of the Lethbridge-Cardston Highway, and when this is done this piece will be ready for the Government to accept and maintain, if original plans are carried out. At any rate the grade will be completed up to standard with an elevated grader which is expected to arrive shortly.

Then there will be four miles graded up to standard on the Raymond-Stirling road part of which expense will be paid out of grant money from the government. Also the road running east and west past the Walcott and H. S. Allen farm will be graded and improved considerably, as the traffic on this road is quite heavy.

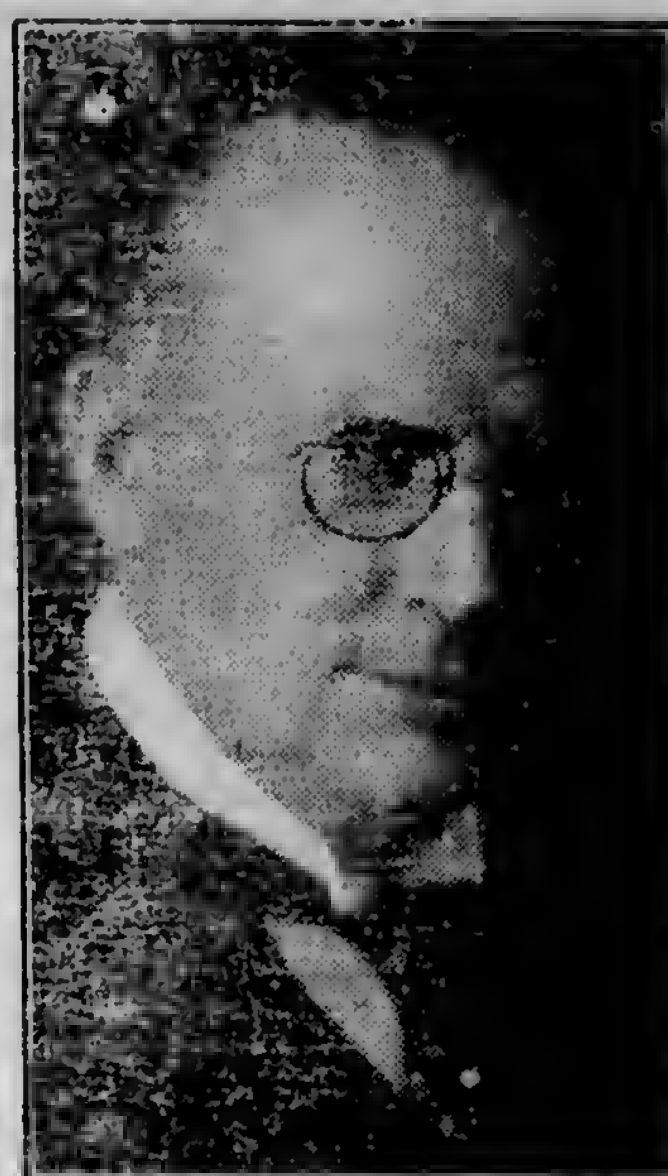

This much is practically certain, and it is likely that more will be undertaken before the summer is over, which in connection with repair work and the periodical dragging should keep our network of roads in pretty good shape.

## Look To Record Season

Prepared for the coming annual invasion by thousands of tourists from Canada and the United States, the British Columbia Coast Steamship service of the Canadian Pacific Railway will have in service during the coming summer in Wuchington, British Columbia and Alaskan waters, nineteen passenger vessels, two of them brand new, the whole fleet representing a total of 58,346 gross tons, accommodation for 17,274 passengers with 3,247 beds in 1,591 staterooms and dining room accommodation for 1,723.

Two new sister vessels, the "Princess Joan" and the "Princess Elizabeth," each of 5,300 tons, will be added to the service between Vancouver and Victoria. These twin-screw oil-burning ships which recently turned in spectacular performances in their trial runs, have a total of 816 beds in 420 staterooms and on day runs will increase the fleet's carrying capacity by a total of 3,000 passengers.

HON. RICHARD B. BENNETT, P.C.  
Member of parliament for Calgary West. Leader of Conservative Opposition, House of Commons, Ottawa, Canada.

Born: Hopewell, N. B., July 3, 1879  
eldest son of Henry I. Bennett and Henrietta (Stiles) Bennett (U. E. Loyalist descent, ninth generation on American continent.)

Education: Public and High Schools, N. B.; Dalhousie University, Halifax, N. S.; Hon. LL. D., Dalhousie University, Queen's University; University of Alberta.

Admitted Bar of New Brunswick, 1893; commenced practice Chatham, N. B. Member of town and municipal councils of Northumberland, 1896. Moved to Calgary, Alta., 1897. Member, Legislative Assembly of North West Territories, 1898-1905; King's Counsel, 1905; Legislative Assembly of Alberta, 1909-11 resigned 1911. Represented Calgary in House of Commons of Canada, 1911-17. Declined nomination, 1917 Defeated 1921. President, Alberta Division and Member of Executive Committee and Central Council Canadian Red Cross Society, 1914-19. Twice represented Canada at Geneva for League of Red Cross Societies, and International Red Cross Society. Member, Executive Committee of Canadian Patriotic Fund, 1914-19. Accompanied Prime Minister to England, France and Belgium, 1916. Director General of National Service until passing of Military Service Act, 1917. Minister of Justice and Attorney General of Canada, 1921, until defeat of Meighen administration. Minister of Finance, 1926 until defeat of Meighen administration. Elected Leader of Conservative Party at National Convention, Winnipeg, Oct. 1927. President, of Canadian Bar Association, Baner Law Society of Alberta. Hon. Colonel Tenth Battalion, Calgary Highlanders. Governor Dalhousie University, Yellow, Royal Colonial Institute. Unmarried.

Recreation: Reading.  
Clubs: British Empire (London); Ranchman's (Calgary); Country (Calgary) Rideau, (Ottawa); Mount Royal (Montreal), Country (Ottawa)  
Address, Palliser Hotel, Calgary Alberta.

## Fascinating Links in Canada's History

Ottawa, May 22; (Special to the Recorder)—In a cabinet in the Grey Room of the Dominion Archives is a large case which is devoted solely to historic coins and mints. In cases where the coin, or bill, is not available they have splendid photographs of the coin in question, which may be located in some provincial museum.

A photograph of the so called "holy dollar" is an interesting part of the case. Regarding it Mr. Webber, who is in charge of the Grey Room, says that a native of Prince Edward Island was in Ottawa a few months ago and said that he would forward him a coin. The photo is an excellent example of the pierced Mexican pillar dollars which with the center piece were issued by Lieut. Governor. Smith, of Prince Edward Island. The photograph is from actual coin in the Nova Scotia provincial museum at Halifax.

### GETTING READY FOR DOMINION DAY

As we announced a week or two ago, Raymond is planning a gala celebration of Dominion Day this year. One that will equal, if not surpass anything yet held.

It sounds a long way off, but now is the time to prepare. A big parade is scheduled and the committee is desirous of having the town suitably decorated for that day. It is too big a job to make a house to house canvass so we are passing on the word.

Aside from the pleasure you get out of decorating, it makes you feel more patriotic and adds to the spirit and sentiment of the day.

Lay your plans now, get your flags and bunting ordered and let's dress up our homes and surroundings for the day. We are all living under the Canadian flag, enjoying the peace and freedom that Canadian law affords and we owe it to ourselves and to the country to observe its Natal day in whole hearted support and co-operation in our Dominion Day celebration.

### BEGINNING AT THE RIGHT EN

Dr. W. Russell Bowie, rector of famous Grace Episcopal Church, New York, announces that hereafter persons who desire to be married in his parish must sign a special pledge. The prenuptial agreement upon which Dr. Bowie will insist reads:

In requesting to be married according to the rites of the Christian church as set forth in the Book of Common Prayer.

We express our purpose to enter a life-long union of mutual faithfulness and devotion;

We recognize that marriage can be permanently happy and enriching only through the cultivation of those qualities of self-control, forbearance, and unselfish love which religious ideals can help to create;

And, therefore, for our own sakes and for the sake of the home which we hope to establish, we will seek to associate ourselves for worship and fellowship with some Christian church in the community where we reside.

The Protestant Episcopal Church, of which Dr. Bowie is a clergyman, has a special commission studying the problem of divorce. So has the Presbyterian Church. So have several other important denominations. And many communions that are not giving the question special study admit that it is causing them grave misgiving.

But one obvious shortcoming of most of the approaches to this question is that they try to tackle it at the wrong end. What, they ask in essence is to be done when a marriage goes on the rocks? On what basis can a man and woman be urged to go on living together, even after they have lost all regard for each other? Or, if separation occurs, what then?

Dr. Bowie's proposal is much wiser and better calculated to reduce the high percentage of divorces. It seeks to enjoin on those entering into marriage some adequate sense of the seriousness of that relationship. It does this by tying up the participants with an institution which, experience has shown, can foster and conserve the traits of character which make for enduring marriage. Dr. Bowie would probably be the first to disclaim that, by the taking of any such pledge, all chances of marital shipwreck can be avoided. But certainly this initial safeguard against a thoughtless rushing into marriage is bound to increase its solemnity, and thus its security. — Christian Science Monitor.

### 200 APPLICATIONS FOR BROADCASTING

Ottawa, Ont. May 21; (Special to the Recorder)—Over two hundred applications for broadcasting have been submitted to the Department of Marines, which department has charge of the radio service. The great majority of these will likely be held in abeyance until after the general elections. It has been intimated by department officials. Some of the more extensive projects may be authorized but the others will have to wait.

One of the applications which may be granted very soon is one from the Canadian Pacific Railway for permission to erect three high power broadcasting stations, one in Montreal, one in Toronto and one in Western Canada, at a point to be selected later.

### TO WHOM IT MAY CONCERN

NOTICE IS HEREBY GIVEN that the Mayor and Municipal Council of the Town of Raymond propose passing a by-law authorizing the closing and selling to suitable purchasers the following streets within the Town of Raymond:

The Streets lying between Lots B-C-D and E, and Victoria Park which run parallel with the East and West and the North and South lines, which bound the said Victoria Park on each of the following sides, to-wit: the North, the East, the South, and the West sides of the said Park, and connecting with the Circle in such manner as to form a complete square when bounded by said lots B, C, D, E and the said Victoria Park, all in Plan 2039 I, Raymond.

Also, the Lane running North and South through Block 66, plan 2039 I. Also the Street running East and West between Blocks 66 and 67, plan 2039 I.

Dated at Raymond this 22nd day of May, A.D. 1930.

O. H. Snow, Sec-Treas.

### "DYNAMITE" C. B. DEMULLEN FIRST TALKING FILM FORCEFUL DRAMA

AT THE CAPITOL NEXT THURSDAY FRIDAY and SATURDAY

Those who need proof that Cecil E. DeMille has returned in "Dynamite" to the spectacular and colorful kind of dramatic material with which he scored his earlier successes, are referred to the following short resumé of this Jeanie MacPherson story. Cynthia Crothers marries Hugo Dirk in the death cell of State Prison seven hours before the red haired coal miner was to hang for murder in order to comply with the terms of grandfathers will, which states that he must be married and living with her husband on her twenty third birthday.

Out of this quest she offered Marcia Towns \$100,000 advance money if she would divorce her husband, Roger Towne, famous polo star. Towne and Miss Crothers have been constant companions for months.

Unfortunately, however, Hugo Dirk was freed from the noose to minutes before his execution. The burly coal miner came to the luxurious home of Cynthia Crothers to claim his bride. The reckless debutante was entertaining members of the elites most exclusive set.

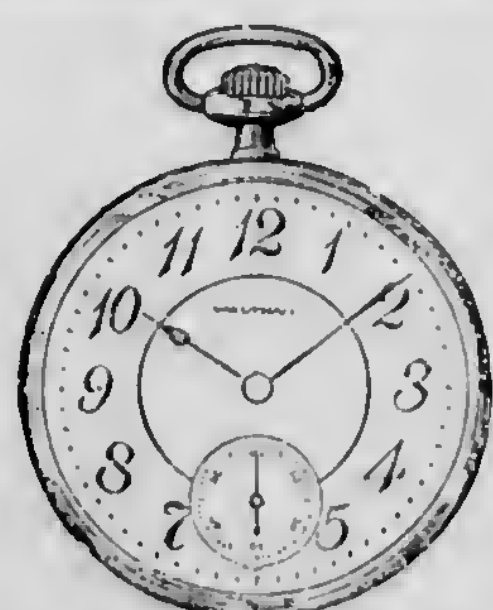

Cynthia, in order to get her money, has to go and live with him. He says she can stay at his home until such a time as she will get the money if she promises to cook and wash and do all that a miners wife should do. Cynthia agrees to this, but they quarrel often and finally she decides to leave.

Roger comes to get her, and together they go into the coal mine where Dirk is working to say good-bye to him. While they are there a cave-in occurs and they are trapped. They have a charge of dynamite which would free a passage for them but no fuses with which to light it. This is not all of the story. The big climax is undisclosed. So come and see "Dynamite" at the Capitol.

### News Notes

The weather hasn't been very warm for the latter part of May. We could use some sunshine and warm days to very good advantage.

JAMES MERCER OF MAGRATH,  
HEADS SOUTH ALBERTA BASE-  
BALL LEAGUE; ONLY AMATEUR  
BALL TO BE PLAYED

At a well-attended meeting of the  
Southern Alberta Baseball League  
held at the town hall of Magrath on  
Sunday, May 18, James Mercer of  
Magrath was unanimously elected as  
head of the organization for the cur-  
rent year. Other officers were chosen  
and plans made for the work of the  
league during the season of 1920.

Following is a complete list of the  
officers elected: President, Jas. Mercer;  
first vice-president, Rayo Woolf; sec-  
ond vice-president, L. B. Duncan; sec-  
retary-treasurer, W. C. C. Laidlaw.

The league will comprise five teams  
this year as follows:—Cardston, Mag-  
rath, Spring Coulee, New Dayton and  
Raymond. The opening games will be  
next Wednesday, when Raymond goes  
to New Dayton.

A schedule is being drawn up and  
we hope to publish it next week.

All stores close tomorrow, May 21.

Wm. Clemis left this week for Leth-  
bridge, where we understand he is  
employed in the new Ellison Milling  
and Elevator Co's elevator at that  
place. M. McPherson who has been work-  
ing with Mr. Clemis for the past year  
is the new agent here. The best wishes  
of the community will go with Mr.  
Clemis to his new position. He has  
been a member of the School Board  
for a number of years.

Eleven mountain 31 passenger buses  
arrived in Lethbridge on Sunday to  
be put in service on the Greyhound  
lines. Seven of them went north on  
Monday the other four remaining in  
Lethbridge for passenger service to  
Waterton Park over the week-end  
(Victoria Day) on Saturday. These  
will take the place of the smaller ones  
which have been found too small for  
the increasing business.

## ? Are YOUR CHILDREN PROTECTED ?

DURING THE YEAR 1928

DIPHTHERIA was responsible for 50 Deaths  
and

TYPHOID FEVER was responsible for 28 Deaths  
of Alberta Citizens

**94** p. c. of the deaths from DIPHTHERIA occurred  
among children under 15 years of age

There Need Not Be a Single Death in the Province, from  
Diphtheria, Typhoid Fever nor Small Pox

Science has placed in our hand the means of wiping these preventable  
diseases out of existence.

The vaccines required for this purpose are furnished FREE OF CHARGE  
to all physicians and local Boards of Health in the Province by the Pro-  
vincial Department of Health.

It is the duty of local Boards of Health to prevent epidemics starting,  
and the most effective method of doing this is to

Protect the Children of Our Province from These Pre-  
ventable Death-Dealing Diseases

What has been done for the protection of the children of YOUR community?

Is YOUR community safe for your children?

The Provincial Department of Health issues Bulletins and pamphlets giving  
information and advice on how to secure a large measure of health and  
how to safeguard life in your community. Copies of these publications  
may be obtained on application to the Department.

PROVINCIAL DEPARTMENT OF HEALTH,  
EDMONTON.

MELVILLE ANDERSON, of Anderson and McLean, Sight Specialists of 224—8th Ave. West, Calgary, will be at the RAYMOND PHARMACY, Raymond, Thursday, June 5th. Regular visits are being made and dependable eyesight service the same as at Calgary will be maintained. Phone or call at the Drug Store for appointment or further information. 2

**News Notes**

Good houses greeted the "Gold Diggers of Broadway" at the Capitol this week on the return engagement.

Sandy fainted at a football game; he bought a score card and neither team scored a goal.

Geo Heggie purchased a new 22-36 International McCormick-Deering Tractor from the Raymond Mercantile this week. Howard Betts brought it over from Lethbridge on Wednesday.

**HEART DISEASE**

The heart is a muscle organ which as a pump, sending the blood to all parts of the body. The blood must reach all parts because it carries the nutrition upon which depends the very life of each part. If the heart is damaged, the result is heart disease. Depending upon the nature and extent of the damage, the heart is corresponding unable to carry out its work.

The heart muscle may be damaged as the result of infection. The poisons given off by germs are very apt to cause injuries to the heart muscles. Rheumatic fever, syphilis, diphtheria and scarlet fever are the principal diseases in which the heart is damaged by the poisons of the germs which cause them.

Another form of infection which is frequently responsible for heart disease is that which is caused by tonsillitis and diseased teeth. In such cases, there is a focus of infection in tonsils or teeth where poisons are produced by the germs living at the focus, and such poisons, when carried in the blood stream, may damage the heart.

Acute rheumatism is the chief cause of heart disease in early life. The specific cause of rheumatism is not known. It should be understood that growing pains, tonsillitis, chorea and St. Vitus Dance are evidence of rheumatism in children.

The prevention of heart disease begins with the maintenance of physical fitness by proper food, fresh air, sunshine, rest and play. A clean mouth, which means regular dental care, and the treatment or removal of diseased teeth; the treatment, or removal, if necessary, of diseased tonsils; prompt attention to tonsillitis or sore throat growing pains, or painful joints, chorea or St. Vitus' Dance are all essential as are the prevention of diphtheria by immunization at an early age, protection against the communicable diseases and proper care of these, if contracted, with particular supervision during the convalescence.

As the individual grows older, care should be taken to avoid those conditions which, although not direct cause do predispose the heart to damage or to the breakdown of a heart already somewhat damaged. Such conditions are excesses of any kind, whether in food or drink, or in the manner of life. Too little or too much exercise, lack of rest, over-eating and worry are some of the factors which contribute to the incidence of heart disease. When heart disease is detected early and the individual is able and willing to adjust his life to the capacity of a weakened organ, he very frequently outlives his friends because of the reasonable care which he gives himself.

**GEESSE OUTDO HOE AMONG WEEDS ON FIELDS OF TEXAS**

DALLAS, Texas—Tourists passing through east Texas in the spring of the year open their eyes in amazement at the sight, here and there, of flocks of geese fenced into a carefully cultivated cotton field, snapping and clipping with their sharp bills in every direction. After passing field after field one begins to realize that these busy workers are not molesting the tender cotton stalks, but that they are making themselves extremely useful by gobbling up every sprig of grass and every insect.

Soon after the heavy timber was cut off the eastern portion of Texas, tall waving grass—Johnson grass—made its appearance and rapidly spread. At first the pioneers were delighted, because their live stock relished Johnson grass, and it needed no cultivation. But when they were ready to cultivate their soil, they found the grass difficult to combat, for the harder they tried to dig it up the more vigorously it seemed to thrive. And the farmer's struggle is still going on.

A score or so of years ago however, an enterprising farmer, one C. C. Simmons in Van Zandt County, discovered the advantage of turning loose a flock of geese in his cotton field. He found his cotton kept clean of grass, and all that he had to do was to keep the soil turned. So Simmons has never been without his feathered friends since, nor have any of the other cotton growers who know the secret.

These good workers ask little return for their services. A little corn or wheat for their winter feed, and work rain or shine they will without complaint. Moreover they pay for themselves many times over. Many farmers who are using geese in this way declare that a \$1 goose does \$5 worth of work in one year.

**Here and There**

(487)

A revelation of the wide range and high quality of manufactured products centering in the twin cities of Fort William and Port Arthur was commented on by visitors to the "Home Industry Exhibition," held at the former city recently. The Exhibit was open only to bona fide manufacturers of the two cities and one hundred entrants had displays in which there was practically no duplication of products.

Forty years ago not a tree could be seen growing on expansive stretches of the virgin prairies in western Canada. To-day trees are plentiful and there is hardly an established farm house but has its shelter belt or a grove of poplars, maples or some other variety of trees. Recent reports of inspectors of Canadian Government Forestry Service show that there are 7,600 farms thus provided and to date over 100 million trees have been distributed over the prairies, with many millions more bought from nurseries and planted on farms.

Alberta led the western provinces in the number of successful farm placements made in 1929 by the Canada Colonization Association when a total of 427 families were settled on 50,803 acres, said W. R. Dick, superintendent of land settlement for the province, at a meeting in Calgary recently.

The first of the Canadian Pacific Railway broadcasts took place February 21 over CKAC from Montreal and CKGW from Toronto, and will be repeated every Friday thereafter. These stations were linked over Canadian Pacific telegraphs which allow the use of technical improvements brought into use for the first time. Running from 10 to 11 on the nights of broadcasting the concerts will be made up of light symphony orchestral pieces and renderings of light and ballet opera music. The series will be built up to the slogan of "Cheerful and Good" and the orchestra will be under the leadership of Rex Battle, a conductor whose brilliant work has won wide popularity. Sea chantey music and French-Canadian and other folk songs will also be featured.

Appointment of L. C. McQuat, one of the Dominion's leading agriculturalists, as general agricultural agent of the Canadian Pacific Railway, announced recently, is further evidence of the railway's interest in the development of Canada. Mr. McQuat has had 15 years' experience in agricultural and livestock affairs and enjoys the distinction of having represented Canada on an Imperial committee to study the meat supply of the British Empire.

Shriners making the Royal York Hotel, Toronto, their Mecca next June for their Imperial Council sessions, will find a city ready built and equipped for 8,000 people at their service. The Canadian Pacific Railway are now building "Pez City" composed of railway sleeping cars and marquees to take the place of administration and service buildings. The new city will closely adjoin the Exhibition grounds where the convention is to be held. It will be divided by "The Midway" and its full length will be adorned with a motor road to be known as "Raucous Drive." Streets numbered 1-1, 2-1, 3-1, etc., will radiate from "Midway".
